MEMORANDUM FOR THE RECORD

SUBJECT: Nuclear Timer (EB-183F)
Project Responsibility Change

1. TSD/CB has completed a primary feasibility study for a Nuclear Timer which allows for extended delay periods in excess of one year. The primary study was conducted by [redacted] New York, N. Y., under Contract RD-162, Task Order 2.

25X1

2. It is the understanding of TSD/EB that the Nuclear Timer Project responsibility for developing "hardware" will be assumed by TSD/EB. TSD/EB and TSD/CB have concurred in this arrangement.

3. On 4 August the contractor was visited by representatives from TSD/CB, [redacted]; and TSD/EB, [redacted] for project familiarization, personnel introduction, and facility inspection. All project reports and pertinent records associated with the project have been released to TSD/EB from TSD/CB. It is the understanding of TSD/EB that the contractor visit and the receipt of project records from TSD/CB represents the formal change of project responsibility. Therefore, TSD/EB has assumed project responsibility from TSD/CB for the Nuclear Timer effective 5 August 1960.

4. It is also the understanding of TSD/EB that the remaining funds under Contract RD-162, Task Order 2, (approximately \$5000.00) will be utilized to complete the current testing program and publish the final report of the primary feasibility study. Additional requests for funding for further development will be issued by TSD/EB under a separate task order. Task Order 2 under Contract RD-162 expires 31 December 1960.
